🌐 Nur Ayunie Khadijah

Dedicated fourth-year Information Technology student with a strong foundation in IT systems, software development, and project management. Skilled in programming, database management, and software development, I have hands-on experience with modern technologies and tools to meet industry demands. Passionate about solving real-world IT challenges, I am eager to contribute to innovative projects and provide effective solutions in areas such as software development, system analysis, or IT support during my internship, leveraging my technical expertise and problem-solving skills.
